INDUSTRY LETTER NO. 2006-03
June 19, 2006

TO: All Licensees, Enrolled Attorneys and Interested Parties

FROM: Larry Gregory,  Executive Director

RE: Installation Schedule for Adherence to MGC IV. Manufacturers and Distributors; and MGC Regulation VIII. Technical Standards for Gaming Devices and On-Line Slot Systems adopted September 15, 2004.

This industry letter references the previously issued Industry Letter No. 2005-02, which extended the deadline requirement for manufacturers and casinos to become compliant with the aforementioned adopted MGC Regulations IV and VIII until July 15, 2006.

Due to unforeseen delays in the submission and review process of Regulation IV and VIII compliant systems, the MGC has decided that, in lieu of another deadline extension, the manufacturers will be responsible for formally submitting for our approval, an installation schedule agreed upon by both the manufacturer and casino licensee. The installation schedule must include the date the manufacturer will provide their system to us for review and subsequent casino installation for field trial verification. Field trial verification will take between 30-60 days and upon successful completion of field trial verification, other casino installations can occur.

The installation schedule must be submitted to the MGC Compliance Division for approval no later than 90 days from the date of this letter. Any modifications made to the schedule must be submitted to and approved by the MGC prior to implementation.

Questions regarding this industry letter should be directed to the MGC Compliance Division.
